MEMORANDUM FOR: Chief, SR/7/DOB

On Friday 3 February 1956 I was contacted on the phone by ☐ of Graphic Registry, who wished to express his appreciation for our having forwarded the attachment to this memo. He stated that Graphic Registry is at present endeavoring to establish a film reproduction facility on the West Coast and that it may possibly desire to use our channel to obtain some of these films for reproduction. He also asked me whether I was in a position to obtain other back copies of such motion picture schedules. I informed him that I had only received one other such schedule in the past and that I would attempt to locate this and send it to him. (At the time that I received this one back copy I recall giving it to ☐ whom I have asked to look for it.) ☐ further asked that if we receive any schedules in the future he would appreciate receiving them. He was promised that all schedules received in the future would be forwarded to him. In general, ☐ whom I have met before, seemed very pleased that we had thought of Graphics, and indicated that this has been of help to them.

I really believe, Colonel, that this type of thing is one of the best ways for us to gain a good and sound reputation around
